

Collegiate Presbyterian Church

Parking Privileges Policy

Purpose For The Policy: Collegiate Presbyterian Church (CPC) is located in close proximity to the campus and facilities of Iowa State University (ISU) where there is high demand for parking by students, faculty and visitors. This policy is intended to provide guidelines for the control of parking in the parking lot(s) surrounding CPC. The Board of Trustees of CPC believes that it is important to control the use of the church's parking facilities. The primary purpose of the parking lots surrounding the church is to provide parking for members of the church when they are conducting church business or participating in church activities. The Board of Trustees recognizes the high demand for parking in the vicinity of the church and believes that defined rules are required to control the use of the parking lots by members and non-members of CPC. The Board also recognizes that the parking lots provide the opportunity for the church to generate income.
